1. **Source of Data:** Export documents collected by Canada Customs are the basic source of export statistics, except for data on electricity, crude petroleum and natural gas exported by pipeline. Electricity exports are reported by the exporting firms through the National Energy Board, crude petroleum and natural gas exported by pipeline are reported by companies directly to Statistics Canada.
2. **Timing:** Export statistics for any month include goods declared on Customs export entries received at STATISTICS Canada up to the last working day in the month. There are some delays in the collection or mailing of these documents, e.g. those relating to waterborne shipments. Exports of some motor vehicles to the U.S.A. cover a statistical month from the 26th of one month to the 25th of the following month. Reports of electricity and of pipeline exports of petroleum and gas are included in the statistics for the following month because of reporting time-lags.
3. **Coverage:**
 - a. **Domestic Exports:** Statistics of domestic exports include both goods which are wholly produced in Canada and goods previously included in import statistics which have since been changed in form by further processing and then exported.
 - b. **Re-Exports:** Statistics of re-exports include only goods previously included in import statistics which are exported from Canada in the same form as when imported. Minor operations such as sorting or blending are not considered as changing the condition of imported goods.
 - c. **Total Exports:** These statistics are the sum of a. and b. above.
 - d. **Exclusions:** The following commodity movements are excluded from export statistics (being however recorded separately as Special Transaction — Non-trade in Table 5): gold and gold products where the value of the gold content is 80 per cent or more of the total value, including coin; settlers' effects; private donations and gifts; identifiable tourist purchases; goods shipped to Canadian diplomatic or military personnel abroad or by foreign representatives in Canada; temporary exports for exhibition or competition, including films for processing. Bunker supplies and ships' stores sold to foreign vessels or aircraft in Canada, temporary exports (other than contractors' equipment shown under commodity code 970-20) and goods merely moving in transit through Canadian territory are not reflected in any of the statistics.
4. **Classification:** Commodities are classified to the *Export Commodity Classification* (XCC), which is based on the Standard Commodity Classification (cf. Cat. 12-502, Statistics Canada). Full descriptions and a definition of contents of each commodity code in the XCC are provided in Export Commodity Classifications, Vols. I, II, and III (cf. Cat. 12-521, 12-522, and 12-523, Statistics Canada).

1. **Source des données:** La statistique des exportations se fonde principalement sur les documents d'exportation recueillis par les Douanes canadiennes, sauf dans le cas des données sur l'électricité et le pétrole brut et le gaz naturel exportés par oléoduc. Les rapports sur les exportations d'électricité sont fournis par les entreprises exportatrices par l'intermédiaire de l'Office national d'énergie, tandis que les compagnies exportatrices de pétrole brut et de gaz naturel par oléoduc fournissent directement leurs rapports à Statistique Canada.
2. **Périodes de temps:** La statistique des exportations pour un mois quelconque comprend les marchandises déclarées dans les documents d'exportation des Douanes parvenus à SC durant ce mois jusqu'au dernier jour ouvrable inclus. Il se produit certains retards dans le recueil ou l'expédition de ces documents, notamment pour ceux qui est de ceux qui ont trait aux marchandises expédiées par bateau. Les exportations de certains véhicules automobiles aux États-Unis couvrent un mois fixé pour les besoins de la statistique, du 26 d'un mois au 25 du mois suivant. Les rapports sur l'électricité exportée et sur les exportations de pétrole et de gaz par oléoduc sont inclus dans la statistique pour le mois suivant à cause des retards dans ces déclarations.
3. **Couverture:**
 - a. **Exportations nationales:** La statistique des exportations nationales comprend les marchandises entièrement produites ou fabriquées au Canada de même que les marchandises précédemment comptées dans les importations et que l'on a transformées en nouveau puis exportées.
 - b. **Réexportations:** La statistique des réexportations ne comprend que les marchandises précédemment comptées dans la statistique des importations et qui sont exportées du Canada dans l'état où elles étaient lors de leur importation. Les manipulations secondaires telles que le triage ou l'assemblage ne modifient pas l'état des marchandises importées.
 - c. **Total des exportations:** Ces statistiques correspondent au total des valeurs a. et b. ci-dessus.
 - d. **Exclusions:** Les mouvements de marchandises suivants sont exclus de la statistique des exportations (ils sont toutefois classés séparément comme transactions spéciales — hors commerce dans le tableau 5): l'or et les articles en or dont la valeur de la teneur en or représente 80 pour cent ou plus de la valeur totale, y compris la monnaie; les effets d'immigrants; les dons et cadeaux privés; les achats identifiables des touristes; les marchandises expédiées aux diplomates ou militaires canadiens affectés à l'étranger ou par les diplomates étrangers au Canada; les exportations provisoires pour les expositions ou les concours, y compris les films exportés en vue de leur développement. Les approvisionnements de soute et de bord vendus aux navires et avions étrangers au Canada, les exportations provisoires (autres que le matériel des entrepreneurs, qui apparaît sous le code des produits no 970-20) et les marchandises qui séjournent temporairement en transit en territoire canadien, ne figurent dans aucune statistique.
4. **Classification:** Les marchandises sont classées dans la *Classification des marchandises d'exportation* (XCC), qui est basée sur la *Classification type des marchandises* (cf. catalogue no 12-502, Statistique Canada). Une description complète et une définition du contenu de chaque code de marchandise figurant dans cette classification (XCC) se trouvent dans les Vol. I, II et III (cf. catalogue nos 12-521, 12-522 et 12-523, Statistique Canada) de la *Classification des marchandises d'exportation*.

5. **Country and area of destination:** Exports are classified to the country to which they are consigned at the time the goods leave Canada, i.e. to the furthest known destination. Statistics are compiled and presented for the individual countries listed on page 8 of this report. Countries are arranged primarily according to geographical location, but they are also grouped by affiliation to trade blocs and by tariff arrangements (e.g. E.E.C. and Commonwealth and preferential countries). In the statistics shown in this report *European Economic Community excludes Denmark, Ireland and the United Kingdom, new members from January 1, 1973.*
 6. **Quantities:** Tables 3 and 5 show quantities, where available, in terms of the units specified for each class in the «Export Commodity Classification, Vol. 1» (cf. above), and defined on page 7 of this report. Table 4 shows quantities only where all (or substantially all) of the classes in a group use the same measure of quantity. Measures of weight or volume exclude any packing required for shipment; and numbers refer to complete (or substantially complete) units exported, excluding parts.
 7. **Valuation:** Export documents define the value to be reported as «f.o.b. (free on board) place of lading», i.e. at the point of production for the majority of commodities. In the case of grain, oil seeds and iron ore, however, valuation is f.o.b. Vancouver or St. Lawrence ports. Exports are compiled in Canadian dollars, following conversion of any values denominated in foreign currency. All values in this report are presented in thousands of dollars, after appropriate rounding. Where the current or cumulative amount is less than \$500, only quantity may be published for the country concerned. On account of rounding individually, differences may arise between totals and sums of constituent items.
 8. **Abbreviations:** Designations of countries and commodities used in this report are often abbreviated or shortened. A key to abbreviations of countries appears on page 8 of this report, and comprehensive descriptions of commodities and commodity groups are shown in the «Export Commodity Classification, Vol. 1», (cf. above). The letters «n.e.s.» mean «not elsewhere specified».
 9. **Revisions:**
 - a. **Data for current month:** Statistics for the current month (i.e. the month which is subject of the report) in the «Preliminary Statement of Canadian Trade» and in the Summary of Imports (65-005) and the Summary of Exports (65-002) have not been audited for reporting or processing errors with the exception of transactions of \$100,000 or more. Figures for the current month in Imports by Commodities (65-007), Exports by Commodities (65-004), Imports by Countries (65-006) and Exports by Countries (65-003) are fully audited.
 - b. **Data for previous months of the current year:** Figures for previous months of the current year remain subject to revision until the reports for December have been published. Commodity/country subtotals revised by \$10,000 or more are shown in the monthly report 65-007 and 65-004 in the month following their application (e.g. report 65-007 for June will show data revised in May for the months January through April of the current year).
5. **Pays et région de destination:** Les exportations sont classées selon le pays vers lequel les marchandises sont consignées au moment de leur départ du Canada, soit la destination la plus éloignée connue. Les données statistiques sont compilées et présentées pour chaque pays mentionné à la page 8 de la présente publication. Les pays sont disposés surtout selon leur situation géographique, mais ils sont également répartis d'après leur affiliation à des groupes commerciaux et selon leurs accords tarifaires (par ex. les pays de la C.E.E., les pays du Commonwealth, et ceux qui jouissent d'un tarif préférentiel). Dans les statistiques qui figurent dans la présente publication, *la Communauté économique européenne n'inclut pas le Danemark, l'Irlande et le Royaume-Uni, nouveaux membres depuis le 1er janvier 1973.*
 6. **Quantités:** Les tableaux 3 et 5 donnent, lorsqu'elles sont disponibles, les quantités exprimées dans l'unité indiquée pour chaque catégorie dans la *Classification des marchandises d'exportation*, Vol. I (mentionnée ci-dessus); les unités sont définies à la page 7 de la présente publication. Le tableau 4 indique les quantités seulement là où toutes (ou presque toutes) les catégories d'un groupe utilisent la même mesure de quantité. Les poids ou les volumes sont mesurés nets de l'emballage nécessaire à l'expédition; et les nombres représentent le nombre d'articles complets (ou presque complets) exportés, sans les pièces.
 7. **Valeurs:** Les documents d'exportation définissent la valeur à déclarer, par ex. «f. à b. (franco à bord, lieu de chargement)»; c'est-à-dire la valeur au lieu de production pour la plupart des marchandises. En ce qui concerne les céréales, les graines d'oléagineux et le minerai de fer, toutefois, la valeur est f. à b. aux ports de Vancouver ou du St-Laurent. Les exportations sont indiquées en dollars canadiens, après conversion de toute valeur en monnaie étrangère. Toutes les valeurs qui paraissent dans le présent rapport sont indiquées en milliers de dollars, après avoir été arrondies. Lorsque la valeur cumulative ou courante est inférieure à \$500, seule la quantité peut être publiée pour le pays concerné. Etant donné que l'on a arrondi chaque valeur, il est possible que les totaux ne correspondent pas aux sommes des éléments constitutifs.
 8. **Abréviations:** Les noms des pays et des marchandises cités dans le présent rapport sont souvent abrégés ou raccourcis. L'explication des abréviations des pays est donnée à la page 9 du présent rapport, tandis que les descriptions complètes des marchandises et des groupes de marchandises figurent dans la *Classification des marchandises d'exportation*, Vol. I, (mentionnée ci-dessus). Les lettres «n.d.a.» signifient «non désigné ailleurs».
 9. **Rectifications:**
 - a. **Données du mois courant:** Les statistiques du mois courant (c.-à-d. le mois visé dans la publication) figurant dans le «Communiqué préliminaire sur le commerce du Canada», le Sommaire des importations (65-005) et le Sommaire des exportations (65-002) n'ont pas été vérifiées quant aux erreurs de déclaration et de traitement à l'exception des opérations d'au moins \$100,000. Les chiffres du mois courant dans Importations par marchandises (65-007), Exportations par marchandises (65-004), Importations par pays (65-006) et Exportations par pays (65-003) ont fait l'objet d'une vérification complète.
 - b. **Données des mois précédents de l'année courante:** Les chiffres des mois précédents de l'année courante demeurent sujets à révision jusqu'à la parution des publications pour décembre. Les totaux rectifiés par \$10,000 ou plus au niveau de marchandise/pays figurent dans les publications mensuelles 65-007 et 65-004 du mois qui suit leur application (par ex., le numéro de juin de la publication 65-007 présentera les données qui ont été rectifiées en mai pour les mois de janvier à avril de l'année courante).

- c. **Monthly data for previous years:** Data for any year previous to the current year are subject to revision only in March of each year. Any monthly commodity/country figures revised at that time will be shown in the March issues of reports 65-007 and 65-004.

Note: Cumulative totals in all reports reflects all revisions applied up to the date of printing.

10. **Treatment of Confidential Information:** It is occasionally necessary to withhold publication of details where commodity or country information is known to involve disclosure. The suppression of commodity-by-country detail, however, affects neither class nor country totals, which include all transactions reported during the calendar month.

- c. **Données mensuelles des années précédentes:** Les données pour toute année antérieure à l'année courante sont sujettes à révision seulement en mars de chaque année. Les chiffres mensuels par marchandise/pays qui seront rectifiées à ce moment-là paraîtront dans les éditions de mars des publications 65-007 et 65-004.

Nota: Les totaux cumulatifs figurant dans toutes les publications prennent en compte toutes les rectifications apportées jusqu'à la date d'impression.

10. **Renseignements confidentiels:** Il est parfois nécessaire de supprimer le détail des données relativement à certaines marchandises ou à certains pays pour protéger le caractère confidentiel de données individuelles. La suppression du détail des marchandises par pays ne modifie toutefois pas les totaux par catégorie, ou groupe de pays qui comprennent toutes les opérations dont il a été fait rapport au cours du mois civil.

5. Special Transactions, Non-trade 990-05-995-89	5. Transactions spéciales hors commerce.....	231

1. **Source of Data:** Export documents collected by Canada Customs are the basic source of export statistics, except for data on electricity, crude petroleum and natural gas exported by pipeline. Electricity exports are reported by the exporting firms through the National Energy Board, crude petroleum and natural gas exported by pipeline are reported by companies directly to Statistics Canada.
2. **Timing:** Export statistics for any month include goods declared on Customs export entries received at STATISTICS Canada up to the last working day in the month. There are some delays in the collection or mailing of these documents, e.g. those relating to waterborne shipments. Exports of some motor vehicles to the U.S.A. cover a statistical month from the 26th of one month to the 25th of the following month. Reports of electricity and of pipeline exports of petroleum and gas are included in the statistics for the following month because of reporting time-lags.
3. **Coverage:**
 - a. **Domestic Exports:** Statistics of domestic exports include both goods which are wholly produced in Canada and goods previously included in import statistics which have since been changed in form by further processing and then exported.
 - b. **Re-Exports:** Statistics of re-exports include only goods previously included in import statistics which are exported from Canada in the same form as when imported. Minor operations such as sorting or blending are not considered as changing the condition of imported goods.
 - c. **Total Exports:** These statistics are the sum of a. and b. above.
 - d. **Exclusions:** The following commodity movements are excluded from export statistics (being however recorded separately as Special Transaction — Non-trade in Table 5): gold and gold products where the value of the gold content is 80 per cent or more of the total value, including coin; settlers' effects; private donations and gifts; identifiable tourist purchases; goods shipped to Canadian diplomatic or military personnel abroad or by foreign representatives in Canada; temporary exports for exhibition or competition, including films for processing. Bunker supplies and ships' stores sold to foreign vessels or aircraft in Canada, temporary exports (other than contractors' equipment shown under commodity code 970-20) and goods merely moving in transit through Canadian territory are not reflected in any of the statistics.
4. **Classification:** Commodities are classified to the *Export Commodity Classification* (XCC), which is based on the Standard Commodity Classification (cf. Cat. 12-502, Statistics Canada). Full descriptions and a definition of contents of each commodity code in the XCC are provided in *Export Commodity Classifications*, Vols. I, II, and III (cf. Cat. 12-521, 12-522, and 12-523, Statistics Canada).
1. **Source des données:** La statistique des exportations se fonde principalement sur les documents d'exportation recueillis par les Douanes canadiennes, sauf dans le cas des données sur l'électricité et le pétrole brut et le gaz naturel exportés par oléoduc. Les rapports sur les exportations d'électricité sont fournis par les entreprises exportatrices par l'intermédiaire de l'Office national d'énergie, tandis que les compagnies exportatrices de pétrole brut et de gaz naturel par oléoduc fournissent directement leurs rapports à Statistique Canada.
2. **Périodes de temps:** La statistique des exportations pour un mois quelconque comprend les marchandises déclarées dans les documents d'exportation des Douanes parvenus à SC durant ce mois, jusqu'au dernier jour ouvrable inclus. Il se produit certains retards dans le recueil ou l'expédition de ces documents, notamment pour ce qui est de ceux qui ont trait aux marchandises expédiées par bateau. Les exportations de certains véhicules automobiles aux États-Unis couvrent un mois fixé pour les besoins de la statistique, du 26 d'un mois au 25 du mois suivant. Les rapports sur l'électricité exportée et sur les exportations de pétrole et de gaz par oléoduc sont inclus dans la statistique pour le mois suivant à cause des retards dans ces déclarations.
3. **Couverture:**
 - a. **Exportations nationales:** La statistique des exportations nationales comprend les marchandises entièrement produites ou fabriquées au Canada de même que les marchandises précédemment comptées dans les importations et que l'on a transformées de nouveau puis exportées.
 - b. **Réexportations:** La statistique des réexportations ne comprend que les marchandises précédemment comptées dans la statistique des importations et qui sont exportées du Canada dans l'état où elles étaient lors de leur importation. Les manipulations secondaires telles que le triage ou l'assemblage ne modifient pas l'état des marchandises importées.
 - c. **Total des exportations:** Ces statistiques correspondent au total des valeurs a. et b. ci-dessus.
 - d. **Exclusions:** Les mouvements de marchandises suivants sont exclus de la statistique des exportations (ils sont toutefois classés séparément comme transactions spéciales — hors commerce dans le tableau 5): l'or et les articles en or dont la valeur de la teneur en or représente 80 pour cent ou plus de la valeur totale, y compris la monnaie; les effets d'immigrants; les dons et cadeaux privés; les achats identifiables des touristes; les marchandises expédiées aux diplomates ou militaires canadiens affectés à l'étranger ou par les diplomates étrangers au Canada; les exportations provisoires pour les expositions ou les concours, y compris les films exportés en vue de leur développement. Les approvisionnements de soute et de bord vendus aux navires et avions étrangers au Canada, les exportations provisoires (autres que le matériel des entrepreneurs, qui apparaît sous le code des produits no 970-20) et les marchandises qui séjournent temporairement en transit en territoire canadien, ne figurent dans aucune statistique.
4. **Classification:** Les marchandises sont classées dans la *Classification des marchandises d'exportation* (XCC), qui est basée sur la *Classification type des marchandises* (cf. catalogue no 12-502, Statistique Canada). Une description complète et une définition du contenu de chaque code de marchandise figurant dans cette classification (XCC) se trouvent dans les Vol. I, II et III (cf. catalogue nos 12-521, 12-522 et 12-523, Statistique Canada) de la *Classification des marchandises d'exportation*.

5. **Country and area of destination:** Exports are classified to the country to which they are consigned at the time the goods leave Canada, i.e. to the furthest known destination. Statistics are compiled and presented for the individual countries listed on page 8 of this report. Countries are arranged primarily according to geographical location, but they are also grouped by affiliation to trade blocs and by tariff arrangements (e.g. E.E.C. and Commonwealth and preferential countries). In the statistics shown in this report *European Economic Community excludes Denmark, Ireland and the United Kingdom, new members from January 1, 1973.*
5. **Quantities:** Tables 3 and 5 show quantities, where available, in terms of the units specified for each class in the «Export Commodity Classification, Vol. 1» (cf. above), and defined on page 7 of this report. Table 4 shows quantities only where all (or substantially all) of the classes in a group use the same measure of quantity. Measures of weight or volume exclude any packing required for shipment; and numbers refer to complete (or substantially complete) units exported, excluding parts.
7. **Valuation:** Export documents define the value to be reported as «f.o.b. (free on board) place of lading», i.e. at the point of production for the majority of commodities. In the case of grain, oil seeds and iron ore, however, valuation is f.o.b. Vancouver or St. Lawrence ports. Exports are compiled in Canadian dollars, following conversion of any values denominated in foreign currency. All values in this report are presented in thousands of dollars, after appropriate rounding. Where the current or cumulative amount is less than \$500, only quantity may be published for the country concerned. On account of rounding individually, differences may arise between totals and sums of constituent items.
8. **Abbreviations:** Designations of countries and commodities used in this report are often abbreviated or shortened. A key to abbreviations of countries appears on page 8 of this report, and comprehensive descriptions of commodities and commodity groups are shown in the «Export Commodity Classification, Vol. 1», (cf. above). The letters «n.e.s.» mean «not elsewhere specified».
9. **Revisions:**
- a. **Data for current month:** Statistics for the current month (i.e. the month which is subject of the report) in the «Preliminary Statement of Canadian Trade» and in the Summary of Imports (65-005) and the Summary of Exports (65-002) have not been audited for reporting or processing errors with the exception of transactions of \$100,000 or more. Figures for the current month in Imports by Commodities (65-007), Exports by Commodities (65-004), Imports by Countries (65-006) and Exports by Countries (65-003) are fully audited.
- b. **Data for previous months of the current year:** Figures for previous months of the current year remain subject to revision until the reports for December have been published. Commodity/country subtotals revised by \$10,000 or more are shown in the monthly report 65-007 and 65-004 in the month following their application (e.g. report 65-007 for June will show data revised in May for the months January through April of the current year).
5. **Pays et région de destination:** Les exportations sont classées selon le pays vers lequel les marchandises sont consignées au moment de leur départ du Canada, soit la destination la plus éloignée connue. Les données statistiques sont compilées et présentées pour chaque pays mentionné à la page 8 de la présente publication. Les pays sont disposés surtout selon leur situation géographique, mais ils sont également répartis d'après leur affiliation à des groupes commerciaux et selon leurs accords tarifaires (par ex. les pays de la C.E.E., les pays du Commonwealth, et ceux qui jouissent d'un tarif préférentiel). Dans les statistiques qui figurent dans la présente publication, *la Communauté économique européenne n'inclut pas le Danemark, l'Irlande et le Royaume-Uni, nouveaux membres depuis le 1er janvier 1973.*
6. **Quantités:** Les tableaux 3 et 5 donnent, lorsqu'elles sont disponibles, les quantités exprimées dans l'unité indiquée pour chaque catégorie dans la *Classification des marchandises d'exportation*, Vol. I (mentionnée ci-dessus); les unités sont définies à la page 7 de la présente publication. Le tableau 4 indique les quantités seulement là où toutes (ou presque toutes) les catégories d'un groupe utilisent la même mesure de quantité. Les poids ou les volumes sont mesurés nets de l'emballage nécessaire à l'expédition; et les nombres représentent le nombre d'articles complets (ou presque complets) exportés, sans les pièces.
7. **Valeurs:** Les documents d'exportation définissent la valeur à déclarer, par ex. «f. à b. (franco à bord), lieu de chargement»; c'est-à-dire la valeur au lieu de production pour la plupart des marchandises. En ce qui concerne les céréales, les graines d'oléagineux et le minerai de fer, toutefois, la valeur est f. à b. aux ports de Vancouver ou du St-Laurent. Les exportations sont indiquées en dollars canadiens, après conversion de toute valeur en monnaie étrangère. Toutes les valeurs qui paraissent dans le présent rapport sont indiquées en milliers de dollars, après avoir été arrondies. Lorsque la valeur cumulative ou courante est inférieure à \$500, seule la quantité peut être publiée pour le pays concerné. Etant donné que l'on arrondi chaque valeur, il est possible que les totaux ne correspondent pas aux sommes des éléments constitutifs.
8. **Abréviations:** Les noms des pays et des marchandises cités dans le présent rapport sont souvent abrégés ou raccourcis. L'explication des abréviations des pays est donnée à la page 9 du présent rapport, tandis que les descriptions complètes des marchandises et des groupes de marchandises figurent dans la *Classification des marchandises d'exportation*, Vol. I, (mentionnée ci-dessus). Les lettres «n.d.a.» signifient «non désigné ailleurs».
9. **Rectifications:**
- a. **Données du mois courant:** Les statistiques du mois courant (c.-à-d. le mois visé dans la publication) figurant dans le «Communiqué préliminaire sur le commerce du Canada», le Sommaire des importations (65-005) et le Sommaire des exportations (65-002) n'ont pas été vérifiées quant aux erreurs de déclaration et de traitement à l'exception des opérations d'au moins \$100,000. Les chiffres du mois courant dans Imports par marchandises (65-007), Exportations par marchandises (65-004), Imports par pays (65-006) et Exportations par pays (65-003) ont fait l'objet d'une vérification complète.
- b. **Données des mois précédents de l'année courante:** Les chiffres des mois précédents de l'année courante demeurent sujets à révision jusqu'à la parution des publications pour décembre. Les totaux rectifiés par \$10,000 ou plus au niveau de marchandise/pays figurent dans les publications mensuelles 65-007 et 65-004 du mois qui suit leur application (par ex., le numéro de juin de la publication 65-007 présentera les données qui ont été rectifiées en mai pour les mois de janvier à avril de l'année courante).

- c. **Monthly data for previous years:** Data for any year previous to the current year are subject to revision only in March of each year. Any monthly commodity/country figures revised at that time will be shown in the March issues of reports 65-007 and 65-004.

Note: Cumulative totals in all reports reflects all revisions applied up to the date of printing.

10. **Treatment of Confidential Information:** It is occasionally necessary to withhold publication of details where commodity or country information is known to involve disclosure. The suppression of commodity-by-country detail, however, affects neither class nor country totals, which include all transactions reported during the calendar month.

- c. **Données mensuelles des années précédentes:** Les données pour toute année antérieure à l'année courante sont sujettes à révision seulement en mars de chaque année. Les chiffres mensuels par marchandise/pays qui seront rectifiées à ce moment-là paraîtront dans les éditions de mars des publications 65-007 et 65-004.

Nota: Les totaux cumulatifs figurant dans toutes les publications prennent en compte toutes les rectifications apportées jusqu'à la date d'impression.

10. **Renseignements confidentiels:** Il est parfois nécessaire de supprimer le détail des données relativement à certaines marchandises ou à certains pays pour protéger le caractère confidentiel de données individuelles. La suppression du détail des marchandises par pays ne modifie toutefois pas les totaux par catégorie, ou groupe de pays qui comprennent toutes les opérations dont il a été fait rapport au cours du mois civil.
